Winston-Salem, NC 27103
www.crosley.com

January 14, 2015

Dear Valued Customer,

You are aware that Crosley launched the 1-3-10 warranty program in 2014. We believed at the time that the benefit of offering the best warranty in the business would create a competitive advantage for you and for Crosley. This proved very challenging. The value of the parts warranty was hard to convey. There was also significant cost factor, particularly going forward. Finally, there was growing concern that the burden of future warranty costs would prevent Crosley from being as competitive on certain high visibility SKUs.

For these reasons, **all products produced after 12/31/2014 will no longer have the 1-3-10 warranty.** All existing product in the pipeline built in 2014 – on your floors and in your warehouses will have the warranty as specified and identified on the warranty information included with the product. Our manufacturing partners are aware of this change. The goods produced in 2015 will not have the 1-3-10 information on or in it. We will be returning to the warranty as you all knew it prior to the 1-3-10 launch. We will have a one year parts and labor warranty provided and fulfilled by our factories. We will also be reinstating the two year (CTW and rental program) and three year (C3W) programs with exactly the same cost and coverage as before. More will be coming under separate cover on this. Please keep in mind that Crosley still carries a best in class ten year extended warranty on the major parts.

Obviously, this change and reset has the potential to cause issues and problems. It is imperative that good and complete communication occur expeditiously. The date of manufacture is embedded into every product serial number. There will be guidance given on how your people can read this information as we move forward. You can sell the goods you own now with the full confidence that the 1-3-10 warranty will be fully honored and fulfilled by Crosley Corporation going forward. Your efforts should be concentrated on moving the product you have on hand; both on display and in your warehouses. We will be contacting you about the products we have available, and the warranty on them. We greatly appreciate your business and support. Together we will work through this and take our sales to new heights.

Chris Harris

President
Crosley Corporation
